

ROK (Retention of Knowledge)

Find the area of the following shapes.

Stretch

Line AC=2.5m

Memory

Step 1 - Cross Sectional Area (CSA)

$$\begin{aligned} \text{CSA} &= \frac{b \times h}{2} \\ &= \frac{8 \times 4}{2} \\ &= \frac{32}{2} \\ &= 16\text{cm}^2 \end{aligned}$$

Step 2 - Volume

$$\text{Volume} = 16 \times 10 = 160\text{cm}^3$$

Stretch

What is the volume of the model house above?

Literacy

The printer is on the blink. Fill in the blanks and also place capital letters and punctuation into the appropriate places so this paragraph makes sense.

to find the volume of a triangular _____ you first need to find the cross sectional _____ to do this you use the formula _____ base _____ height to then find the volume of a _____ prism you _____ the CSA by the _____.

Skill 1

Find the volume of these shapes.

What is the volume of the trapezoid prism?

Write an expression for the volume.

Skill 2

Find the missing lengths.
